- (i) Only each athlete’s two (2) highest point scores from the selection competitions set out in clause 4.2.1 will be totaled for the purposes of the rankings.
- (ii) Where two or more athletes have the same total ranking points score, the athlete who has the highest single ranking points score shall be ranked higher.

- (iii) Where two or more athletes are still ranked equally after consideration of the above clause and a choice must be made between the two athletes for the purposes of this Criteria, the athlete who achieves the best result at selection competition 3b shall be ranked higher.

4.2.5 STAGE 2 WORLD CUP SELECTIONS: Stage 2 allocations will be made for each Class up to the maximum ICF quota positions for Australia using the following criteria:

The next highest ranked athlete(s) according to clause 4.2.4, who has not already been selected at Stage 1, will be automatically selected in the Class or Classes they achieve the ranking results to the respective World Cups, subject to fulfilling the following criteria in order:

World Cups 1 and 2:

- 4.2.5.1 the highest ranked Under 27 athlete(s) and who has achieved at least 1 x Senior MPS.

World Cup 3:

- 4.2.5.2 the highest ranked U23 athlete, who has not already been selected for World Cups 1 and 2, and, who has achieved at least 1 x U23 MPS; then,
- 4.2.5.3 the highest ranked U27 athlete, who has not already been selected for World Cups 1 and 2, and who has achieved at least 1 x Senior MPS; then,

DISCRETIONARY SELECTION

- 4.2.7 The Selection Panel, in its absolute discretion, may select additional athletes in Olympic Class(es) up to the maximum number of quota places awarded to Australia by the ICF.
- 4.2.8 In applying its absolute discretion, ALL eligible athletes (regardless of age) may be considered by the Selection Panel. The Selection Panel may consider any one, a

combination of, all, or none of the following factors (in no specific order of importance or weighting), in its absolute discretion:

- 4.2.8.1 ranking of each athlete according to clause 4.2 of this Criteria;
- 4.2.8.2 application of MPS according to clause 5 of this Criteria; or
- 4.2.8.3 national and international performances over the most recent 12 months.

4.3. CSXL SELECTION CRITERIA

The ICF has made a clear statement that it is strongly pursuing the inclusion of the CSLX event as a potential Olympic event for Paris 2024. The IOC and subsequently, the ICF, have made it clear that, if successful, there will be no additional athlete quota positions available and hence, CSLX athletes will have to come from the slalom discipline pool of athletes. With that in mind, the following Criteria will be used to select athletes for all CSXL Events in 2020:

- 4.3.1 Athletes will be ranked in the K1M and K1W canoe slalom Classes according to the same ranking system outlined in clause 4.2 of this Criteria, and specifically clause 4.2.4 and regardless of age.
- 4.3.2 Where an athlete either chooses not to contest the CSLX at a World Cup competition, then the position may roll down to the next ranked K1 athlete, subject to that athlete already being selected for that World Cup.
- 4.3.3 Subject to a position being available following the application of clauses 4.3.1- 4.3.2, the Selection Panel may, in its absolute discretion, select C1 athlete(s) who have already been selected for each respective World Cup Competition.

5. MINIMUM PERFORMANCE STANDARDS (MPS)

- 5.1 The 2020 canoe slalom MPS are outlined in Schedule A of this Criteria and may be applied in the absolute discretion of the Selection Panel according to clause 5.2.
- 5.2 Where listed in the Criteria that there is a requirement for athletes to 'achieve MPS', this means an athlete has:
 - 5.2.1 Achieved the necessary MPS in a single run within the performance standard listed in Schedule A for the relevant Event, whether on the Heats 1st run (only), Semi Final, or Final phase.
 - 5.2.2 If, for any reason, an athlete has not achieved MPS and the Selection Panel requires further evidence of an athlete's ability to achieve MPS, it may consider the following:
 - Relevant performance times in relation to MPS from the athlete within the past 12 months, or

- Relative performances against other athletes who have achieved MPS within the past 12 months,
- Approved Extenuating Circumstances according to clause 6.

6. EXTENUATING CIRCUMSTANCES

- 6.1 Notwithstanding anything contained within this Criteria, an athlete may apply in writing to the Selection Panel (via the Chair), to consider Extenuating Circumstances. Such application must incorporate substantive supporting evidence. This application must be received either prior to the Selection Competition beginning, or, as soon as practically possible and no later than 2 hours following the Event in which the extenuating circumstances apply.
- 6.2 The Selection Panel is not obliged to accept or consider an application under this clause. Only Extenuating Circumstances which prevent an athlete from either attending a Selection Competition, or, finishing an Event which holds selection status.
- 6.3 For the purposes of this Policy, "Extenuating Circumstances" means:
- a) injury or illness, as confirmed by the PA Chief Medical Officer, or their authorised representative;
 - b) equipment failure (where applicable);
 - c) travel delays;
 - d) bereavement or disability arising from death or serious illness of an immediate family member; and/or
 - e) an unanticipated event occurring at the Selection Competition(s).
- 6.4 If the Selection Panel accepts an Extenuating Circumstance application, a decision in each case of the weight afforded to the Extenuating Circumstances, will be made by the Selection Panel on an individual basis at its absolute discretion.

7. EVENT CANCELLATION

If one of the selection competitions is cancelled (e.g. extreme weather/ catastrophic pump failure at Penrith etc) – the following will apply;

- 7.1 If selection competition 1 is cancelled, apart from the selection criteria related to that specific selection competition, the remaining Criteria will remain unchanged.
- 7.2 If one of the three domestic selection competitions is cancelled, apart from the selection criteria related to that specific selection competition, there will be no change to the selection criteria (i.e. each athlete's two (2) point scores from the selection competitions set out in clause 4.2.1 will be totalled for the purposes of the rankings.
- 7.3 If more than one of the three domestic selection competition(s) is cancelled, the selection

panel will, at their absolute discretion, select athletes for all World Cup competitions in each Class. In doing so, the Selection Panel may consider, but is not required to consider, any one or combination of the following factors (in no specific order of importance or weighting):

- (i) performances in ICF World Cup or World Championships Competitions over the last 24 months;
- (ii) performances in the most recent domestic season, including, Oceania Championships and Australian Open;
- (iii) demonstrated continual performance improvement over the last 24 months;
- (iv) recent performances in relation to the Senior MPS, or in relation to the U23 MPS for those eligible U23/Junior aged athletes;
- (v) current athlete injury/illness or condition which may impair an athlete's performance; and
- (vi) benefit and timing of a competition to assist an athlete's preparation for an U23 or Senior World Championships.

8. SELECTION ANNOUNCEMENTS

Announcement of the Team will be made within 1 week of the 2020 Australian Open.

Athletes must accept the offer of selection within 5 days of receiving the selection confirmation.

9. MIXED C2 STATEMENT

- 9.1 The ICF has indicated that there is currently no intention to pursue the MX C2 as an Olympic Class. The PA selection principles, as directed by its principal funding partner (AIS), state that priority of resources etc will be provided to Olympic Class competitions, which the MX C2 Class is not currently.
- 9.2 Hence, PA has made the decision not to include specific criteria relating to the MX C2 Class.
- 9.3 Once the Team has been selected, then coaches for each Team may select athletes into MX C2 boats for competitions from within the selected Team. E.g. The coaches for the Team may explore opportunities to create one or more MX C2 from within the athletes already selected via C1 for the Team.

SCHEDULE A: MINIMUM PERFORMANCE STANDARDS

Implementation of MPS:

1. At the conclusion of each Selection Trial under this Criteria, a Base Score is calculated as the average of the lowest total score recorded by any Australian athlete in C1 Men, C1 Women, K1 Men and K1 Women.
2. A Base Score is only calculated from the heats phase run 1 and from the Semi Final run at each Selection Trial.
3. Example:

The Base Score is calculated by adding the winning score (best eligible Australian) in any age category in C1M, C1W, K1M, K1W and dividing by 4. The percentage score for an athlete/crew at a competition is calculated by dividing the total score for that athlete/crew by the Base Score and multiplying by 100. For example, if the Base Score at a competition is 184.55 and athlete A has a score of 195.44, the percentage score is calculated as follows:

$$(195.44 / 184.55) \times 100 = 105.90\%$$

2020 MINIMUM PERFORMANCE STANDARDS: (updated in October, 2020)

Class	Senior MPS (% of Base Score)	U23 MPS (% of Base Score)	Junior MPS (% of Base Score)
K1 Men	<94.17%	<97.56%	<107.32%
K1 Women	<108.05%	<118.60%	<126.28%
C1 Men	<100.91%	<104.69%	<116.87%
C1 Women	<125.87%	<125.44%	<141.31%
