2024 Asia Pacific Cup Performance Standards (PS)

**2024 U16 Kayak Target Times are:**

<b>U16 Kayak</b>	<b>K1 500</b>	<b>K1 1000</b>	<b>K1 200</b>
Men	1:53.17	4:01.68	00:42.41
Women	2:08.50	4.26.52	00:45.75

**2024 U21 Kayak Performance Standard times are:**

U18	00:54.13	04:28.28
U21	00:53.18	04:23.57

The 2024 Performance Standards have been based on an analysis of the 2012-2023 World Championship and Olympic Games results. The standards are based on the average gold medal winning time at the senior level, calculated over the last 11 years. Where there is not 11 years of data, times are based on the data that is available over the longest period of time. By averaging across multiple years, the effects of adverse or advantageous environmental conditions are effectively negated, with more years included resulting in the likelihood of a more accurate reflection of neutral conditions. Performance Standards are therefore expected to be achievable in what is considered environmentally neutral conditions (Freshwater, 25°C Water temperature, 0.0 m/s wind strength). The U16 APC Kayak PS is calculated using the above-mentioned process and adding 15% to the gold medal Time. The U21 APC Kayak PS is calculated using the above-mentioned process and adding 9% to the Gold Medal Time. The Junior APC Canoe PS is calculated using the same above-mentioned process and adding 14% to the gold medal Time. The U21 APC Canoe PS is calculated using the same above-mentioned process and adding 12% to the Gold Medal Time.
